

Virtual Health Care

Comprehensive virtual health care - accessible through your company app.

Virtual Behavioral Health

You now have access to high-quality virtual behavioral health services through your company's app. Whether you're facing anxiety, stress, depression, grief, or simply need someone to talk to, licensed professionals are here to help.

- ✓ \$0 copay for therapy or counseling sessions with licensed clinicians
- ✓ Access to psychiatrists for medication management, when needed
- ✓ Appointments available within 48 hours
- ✓ Entirely mobile experience - no phone calls, paperwork, or external platforms

Virtual Primary Care

You now have access to a dedicated primary care physician and care team through your company app - for you, your spouse, and your dependents.

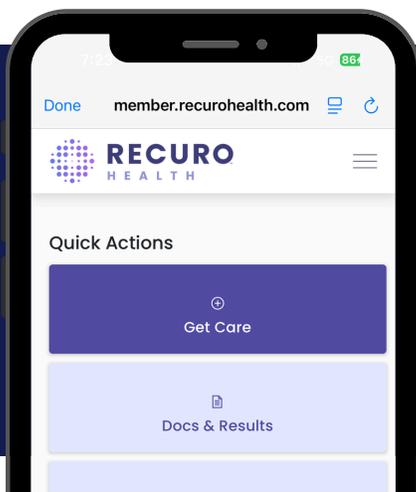

- ✓ A dedicated physician who knows your history and coordinates your ongoing care.
- ✓ Virtual visits via video or messaging - from home or on the go.
- ✓ At-home lab kits and health risk assessments to help detect issues early.
- ✓ Chronic condition management and specialist referrals, all coordinated.

Virtual Urgent Care

You now have access to on-demand virtual urgent care services - at no cost to you or your covered dependents.

Whether you're at home, at work, or traveling, you can speak with a licensed, board-certified medical provider within minutes.

- ✓ \$0 copay for employees and family members
- ✓ Fast treatment for common conditions like colds, flu, pink eye, rashes, allergies, UTIs, and more
- ✓ Mobile-first experience - no waiting rooms, scheduling delays, or paperwork
- ✓ Family-friendly - care available for spouses and dependents with shared access

2. Enter your email and the verification code we send you
3. Set your password and log in

evo What is Evo Urgent Care Telehealth?

Illness or injury doesn't always strike during normal hours. By utilizing Evo Virtual Care urgent care telehealth, you and your family have access to the medical help you need through phone or video. Services are accessible anytime, anywhere to get you the care you need. Evo Virtual Care has impressive board-certified medical providers who will provide a diagnosis and personalized treatment plan. If needed, they are able to send prescriptions for common medications to your preferred pharmacy.

Urgent Care Treatment:

Some medical conditions Evo Virtual Care Urgent Care can treat include:

- Abrasions, bruises
- Colds, flu and fever
- Sore throat, cough, congestion
- Allergies, hives, skin infections
- Bites and stings
- Minor headaches, arthritic pains
- Medication refills (short-term)
- Diarrhea, vomiting, nausea
- Urinary tract infections
- Headaches, body aches
- Eye infections, conjunctivitis
- And more!

How it Works:

Find your treatment

Choose the care option that best suits your current needs.

Select your visit type

Share relevant health information with a board-certified provider via online interview, phone, or video.

Get a diagnosis and care plan

A provider will give you a diagnosis and treatment plan. If we can't treat you virtually, we'll help find the best in-person care options for you.

Begin your care

Receive a personalized treatment plan when needed easily sent to local pharmacy

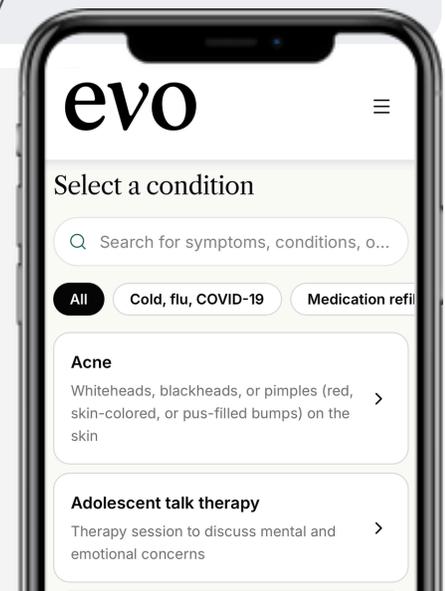

FAQ's:

On average, how much is saved through Evo Virtual Urgent Care?

The average cost of an urgent care visit is more than three times the average cost of a visit at Evo Virtual Care leading to substantial savings for all involved.

How do I access through MAGIS+?

Through SSO, Evo Virtual Care services can be accessed directly in the app. No need to download another app, easily register and access care at the touch of a button.

Employee Advocacy

Alight provides high-quality employee advocacy to help employees understand their benefits and make educated healthcare decisions. Issues with claims, finding physicians in the area, and comparing prices of medical procedures are just a few of the type of support employees receive through Alight.

Utilize Services

Medication Support

Receive medication support and advice from Alight's pharmacist and nurse team.

Understand Benefits

Understand the healthcare plan offered for you and your family. Clear up any confusion.

Save Money

No need to wait in waiting rooms. Treat minor injuries & illnesses virtually

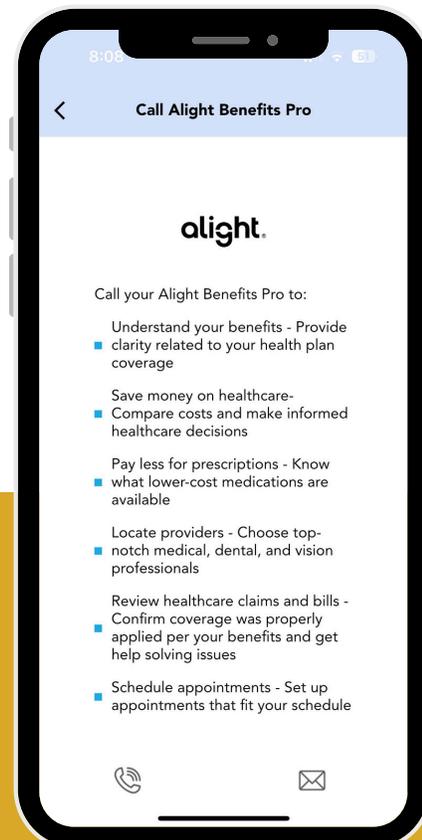

Find Great Physicians

Find quality doctors, dentists, and opticians in your area to access the care you deserve.

Cost-Savings

Alight gives multiple options and insights to providers to maximize cost-savings. Companies using Alight have seen savings in the hundreds by their employees being guided to make smarter healthcare decisions. Our clients calls with health pros lead to:

\$560 Productivity Cost Savings
Entire Household Assisted
Hundreds In Total Savings

Integrated In MAGIS+

Easily access Alight advocacy directly in the MAGIS+ app. It's as easy as a few clicks to call and receive the many benefits Alight offers.

Patient Advocacy in the MAGIS+ App

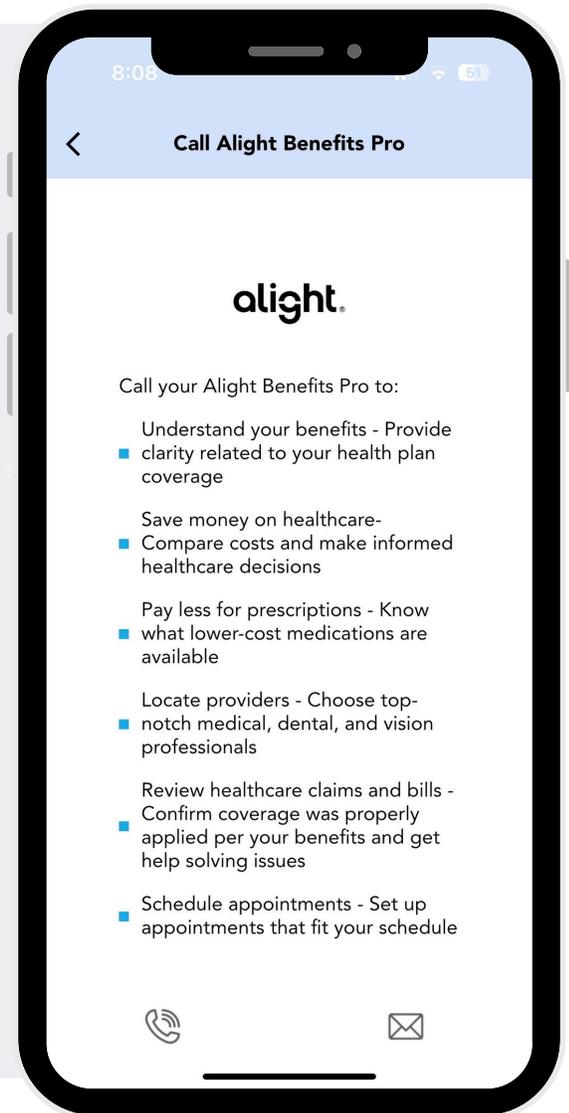

Health benefits, bills, and finding care can be time-consuming and confusing. Alight Patient Advocacy gives you a personal Health Pro® who helps you handle healthcare tasks and make smarter, lower-cost decisions.

What Your Health Pro Can Do

Use Alight anytime you need help with healthcare or benefits.

Your Health Pro can:

- Explain your benefits and what's covered.
- Find in-network doctors, dentists, and vision providers near you.
- Compare prices and estimate costs before a visit or procedure.
- Review medical bills and claims and help fix errors.
- Lower prescription costs by finding better options.
- Schedule appointments that fit your calendar.

How to Use Alight in MAGIS+

1. Open the MAGIS+ app
2. Tap Alight / Patient Advocacy
3. Choose Call or Email to contact your Health Pro
